Valpak - Inspiring businesses to do all they can to reduce environmental impact.

Since the UK Packaging Waste Regulations were introduced in 1997, Valpak has provided simple and innovative environmental compliance solutions to...

over 4,000 businesses in *every corner of the globe.*

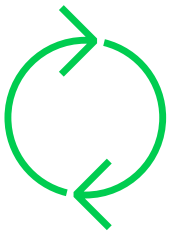

Valpak continues to innovate and grow, now offering additional services to cover wider areas of sustainability, including **carbon management, energy management, packaging analysis, Extended Producer Responsibility (EPR) support and data management** - helping businesses to meet environmental objectives, mitigate costs and ensure compliance all over the world.

In addition, Valpak launched the recycle-more website in 2000 to help its retail customers provide consumers with the necessary information to ensure **responsible disposal of their products and packaging at end of life.**

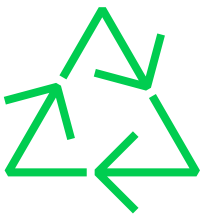

The website also promotes environmental awareness and encourages sustainable behaviour – to

reduce

reuse

recycle

Recycle-more has successfully improved recycling awareness among consumers, especially regarding waste electrical and electronic devices and batteries.

Today, recycle-more.co.uk is **one of the most popular recycling information websites in the UK**, supporting not only households, but schools, and businesses too. The Recycling Bank Locator feature helps users locate their nearest recycling centres, offering details for recycling sites all over the UK.

> *"The support, tools and service from the team of experts at Valpak has been first class and a breath of fresh air both in terms of reporting, submissions and PRN purchasing. We look forward to many more years of building the partnership for the foreseeable future.*
